MICHAEL KING — A/V INSTALLATION TECHNICIAN

Professional Experience

Michael is a relatively new member of our crew, although he has become quite an invaluable member of our team. Working on some of our most challenging projects, he has excelled in being able to figure out creative solutions to any challenges that may arise. Not only is Michael an excellent technician, but he has worked in the live audio and production industry in all aspects from House of Worship sound engineering, to larger festivals and events, such as Bike Week in Daytona, FL. As well as his excellent live audio engineering experience, Michael has a degree and background doing Audio Recording and Audio Post-Production for short films and commercial content. Michael is a very well-rounded technician and continues to prove more valuable with each new project.
